New sounds around town

Shakura

Led by shamanic healer Blanche Blacke, this band's hype sheet tells us that, "Like the Dionysians, Shakura creates music to purge negativity and raise the vibration of body, mind and spirit, pretty inventive and entrancing, with ethnic percussion joining cello, stand-up bass and Blacke's fluid ululations in a timeless merge, that would sound equally at home in a pagan commune or the chill-out room of a modern rave."
